

CSS Project

CSS Project - 1

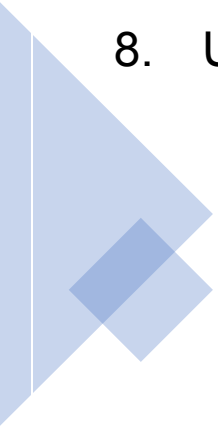

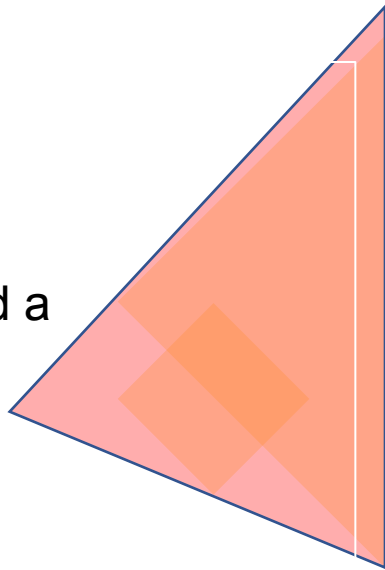

Develop a simple website with pure CSS for an IT Solutions Company. Use Float and Design your own div containers, navbar, contact page, about us page.(Concepts Involved CSS Float, Media Queries, Styling Navbar, background properties, box modelling, External icon - FontAwesome)

Folder Structure :

- css/styles.css
 - index.html
 - about.html
 - contact.html
 - Make a folder images for all the images used in the project (Minimum 4 images)
- FontAwesome CDN : <https://cdnjs.com/libraries/font-awesome>
- Open Source Images : <https://www.pexels.com/CSS Grids>

Instructions

1. All the pages must have same header and footer.
2. The pages should be responsive.
3. The Navbar should be responsive – a horizontal navbar for screen size more than 600 px and a drop-down vertical navbar for screen size less than 600 px
4. Include images where ever required
5. The website is to be designed by collaborating the ideas of all the participants.
6. The participants are required to work together and update the git repository accordingly.
7. For reference visit <https://neoitcompany.com/> or <https://www.itsolutions.cw/>
8. Use your creativity and imagination to make the website look professional

Thank You!!!
